

Austin Floral

Elegant Casual – Austin Floral Indigo

This fresh botanical pattern is inspired by a 19th century European set of transferware dishes, and it shares the antique's amazing naturalism. A flowing layout that travels across the plate takes its cues from Aesthetic Movement and early Modern china. Multiple motifs of fruiting branches are boldly scaled for a modern feeling; designs include pears, peaches, plums, currants, cherries, strawberries, and blackberries, all dotted with butterflies and bees. Imagery varies from dish to dish, emphasizing a whimsical, one-of-a-kind look.

AUSTIN FLORAL™ is produced in fine ironstone for practical everyday use, and is both dishwasher and microwave safe. Colorways include Indigo, a blue-on-ivory treatment in the same dark cobalt shade as the Marielle Indigo china; and Ivory, a subtle grey-beige-on-ivory version. Both looks are designed to work in combination with the Marielle family, in Indigo, Celadon, or Platinum.

Austin Bee

4-Piece Hostess Set

3-Piece Serve Set

2-Piece Buffet Set

Austin Bee™ Flatware

This charming pattern is made on the shape of the existing Austin flatware, with the addition of a decorative bee motif adapted from the Austin Floral dinnerware. Raised bee cartouches adorn all of the implement handles, and the pierced slots on several serving pieces are in the silhouette of bees. Each bee element is exclusively drawn and cut, evoking the unique detail of vintage silverware.

Austin Bee™ Gift Sets

Three different gift sets add depth and variety to the **AUSTIN BEE™** flatware offering, and are intended to make compatible gifts with any stainless service. Included are a special 2-piece cake set; a 4-piece canapé spreader set; and serving tongs. All are elegantly gift boxed and ready for giving.

All patterns crafted in 18/10 stainless steel.

Trefor

Trefor™ 45-Piece Set with Caddy

TREFOR'S design is based on archetypal Chippendale profiles, with details from an antique English silverware setting. Shaping is subtle and fine: a small notched step connects each implement to its handle, followed by a formal recess where fingers grasp the utensil. The base of the handle has a soft demilune shape, echoing classical architecture, and each piece is neatly beveled along the edges.

45-Piece service includes: eight 5-Piece Place Settings plus a 5-Piece Hostess Set, including Serving Spoon, Pierced Serving Spoon, Cold Meat Fork, Butter Knife, and Sugar Spoon. Handsome, full-color packaging showcases the flatware and caddy for maximum consumer impact.

All patterns crafted in 18/10 stainless steel.

Trefor Flatware Caddy

The handsome organizing tray is developed with an overscale Georgian molding detail for visual interest. A modern oak finish adds a rich wood appearance for stylish storage in the kitchen or on the sideboard.

TOB214 Cynthia Bottle Opener

Building on the success of the CYNTHIA™ Collection, Reed & Barton has extended this distinctive cut crystal identity to a mixed-media barware grouping.

Chic and chiseled, CYNTHIA is O'Brien's take on classic panel cut crystal. The motif carries over to new Hiball and DOF glasses, with the same single horizontal crosscut defining the pattern. New to the barware is a group of bar accessories in attractively grained wood and stainless, including an ice bucket, wine coaster, and an ingenious bottle opener with a hidden corkscrew. The deep beveled cuts that define the crystal are echoed in the sunburst patterns on all these accessories, in etched stainless steel. These items make excellent stand-alone gifts or additions to an existing bar service.

TOB275 Darby Ice Tongs

DARBY™ Ice Tongs

Consider this stainless steel implement as an opening price point in the giftware category, or, as a beneficial staple for at-home bars in need of the perfect ice tongs. The chic ridge profile that characterizes the handle is a design detail in common with O'Brien's TILDEN flatware group.

Darby Martini Shaker

Joining the popular DARBY Barware story, this vintage-inspired martini shaker is both an essential commodity for the complete bar set and a strong silhouette for display. This profile shares the clean cross-cutting motif and starburst bottom of the other DARBY elements, with excellent weight in hand and deep clarity of crystal. The top and strainer are stainless steel.

The Frame Collection

The new motif in giftware is LONDON™, a hammered metal look akin to vintage pounded silver, pewter, and copper designs. O'Brien uses two scales of hammering – one larger and one smaller and denser – to articulate different tiers of simple profiles on a series of picture frames. The look is both classic and easily contemporary, for those with masculine or sleek tastes. All are in silverplate with a lacquered finish to prevent tarnishing.

TOB16 – Circle, 3"

The new FLORAL BORDER™ frame faithfully adapts a romantic, scrolling lily engraving from an antique silver frame. The new version shares the rubbed, worn relief of the original silverwork, with background crosshatched etching that gives added depth and patina. Though floral in nature, the design is both subtle and formal enough to please couples as an ideal wedding photo frame. Two standard sizes permit easy photo placement. Both are in silverplate with a lacquered finish to prevent tarnishing.

Landon Serveware

Landon's hammered metal theme extends to a series of handsome accent dishes and trays for serving and decoration, in warm nickelplate. The serveware includes octagonal, square, and rectangular shapes with beveled corners. Like many of the Landon picture frames, these pieces feature two tiers of hammered profiles.

Filigree Band Jewelry Box

With presence enough to anchor any display on a vanity or credenza, this ultra-glamorous jewelry box is also thoughtfully functional. Specially proportioned trays of soft gray felt stack inside the box, to protect all shapes and sizes of fine trinkets. The exterior is fully clad in lustrous silverplate and an etched geometric band runs down the center and front of the box, taking the form of the Renaissance-inspired paving motif that adorns many of O'Brien's other boxes.

TOB274 TOB Votive

TOB Crystal Footed Votive

This companion votive adds range to the signature TOB crystal candlestick. Configured as a cropped column on a significant, oversized slab base, this basic votive is made special by its epic mass and scale. The thickness of the crystal is dynamic and positively sculptural.
